

A photograph of two women shaking hands in a field. The woman on the left has long braids and is wearing a white shirt and a tan apron. The woman on the right has curly hair and is wearing a yellow shirt and blue jeans, holding a tablet. The background shows a green field and mountains under a cloudy sky.

With those who are making
A lasting impact in Africa

Ciwara Capital is an **investment company** created by the **African diaspora** to finance **the continent's growth and climate transition.**

This mission was made possible by the backing of **key financial and technical partners**, including: **IFAD and I&P**

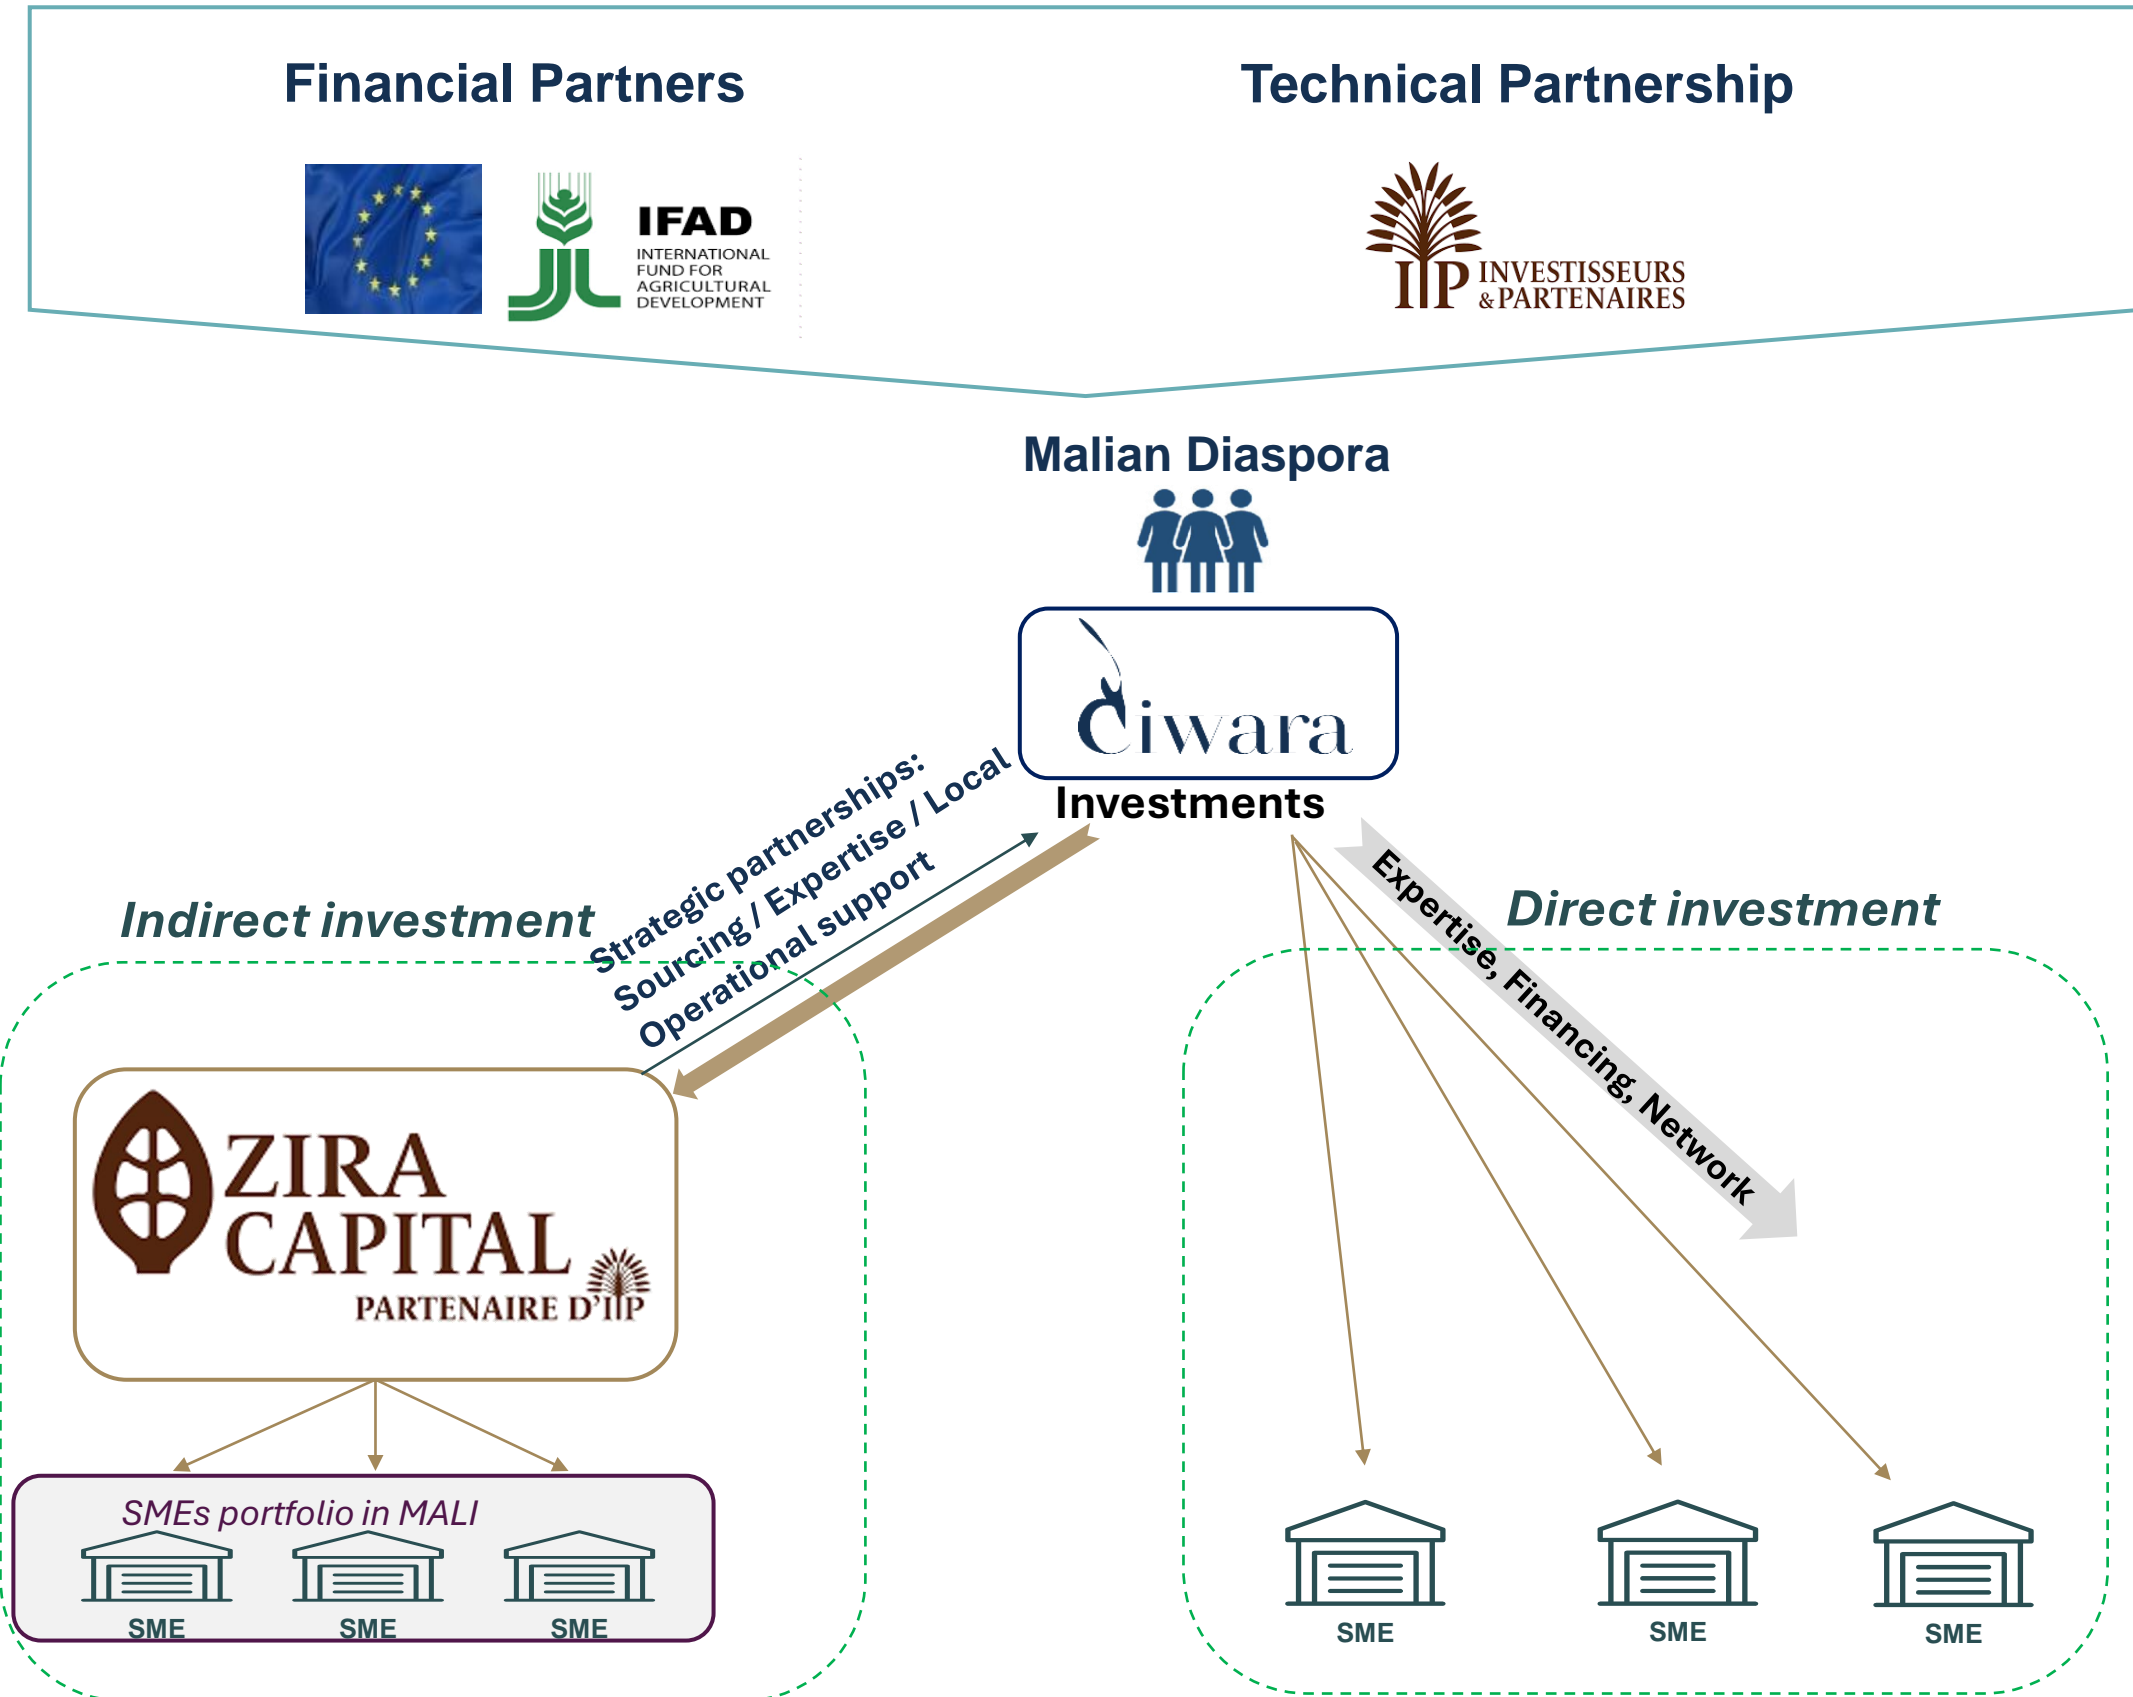

We invest in equity and debt, in SMEs and startups to support them in becoming **regional champions.**

The initiative brings together all investors wishing to make a financial commitment in the **sustainable development of the African continent.**

Driving Africa's Climate Transition with Strategic Partnerships and Investment

Europe

Africa

- ▶ **EUR 200,000** RAISED FROM THE DIASPORA

Contributing to a sustainable transition in Africa

WE ARE CONTRIBUTING TO A STRONG AND SUSTAINABLE AFRICA BY :

Building bridges and transforming the economic paradigm between the diaspora and the African continent

Creating value on the continent by supporting the private sector

Fostering the creation of decent, formal jobs for all, women and men alike

Developing and enhancing local industries with sustainable practices for long-term growth

Our achievements in supporting the Climate transition

The need to consider climate risks due to their financial impacts on short and long-term investments

The approach needed to be adaptative to the populations, as local resources are limited, old habit die hard, and practices require sustained change management over time

Small changes over time can make big differences

IMPACT AND CLIMATE CHANGE FOCUS: SOPROTRILAD

Prioritize businesses with sustainable impacts:

- **Jobs creation** for local population and Financial inclusion
- Support in **improving governance** through shared-experiences and expertise

Prioritize agribusiness models that incorporate:

- Measures to **anticipate natural disasters**
- **Support to producers** to improve their cultural practices
- Measurement of their **carbon intensity** and guidance towards methods that better **preserve soil quality**
- Promotion of using **higher-quality inputs**
- **Circular economy** or recycling business models and **biodiversity preservation**
